From pre-built to custom-built Leavenworth Online has all the options to meet your company needs.

Leavenworth Online sells many pre-built (HP, SuperMicro, etc) servers and our own custom servers to our network clients every year. Whether your server will be used as an Internet server or a Domain Controller, Leavenworth Online has the expertise to create a secure and stable platform to meet your needs.

Leavenworth Online's custom servers have been supplying all of the needs for our Internet customers for over 14 years! A few of our servers still in use are over 10 years old, running 24 hours a day 365 days a year for 10 years. Can your servers do that?

Please contact Leavenworth Online for a custom quote to meet your needs.
